See accompanying notes to consolidated financial statements.

## 4) Notes to Consolidated Financial Statements (Unaudited)

#### 1. Summary of Significant Accounting Policies

#### (a) Basis of Presentation

TDK Corporation and most of its domestic subsidiaries maintain their books of account in conformity with the generally accepted accounting principles in Japan, and its foreign subsidiaries' books of accounts are mainly in conformity with those of the countries of their domicile.

The consolidated financial statements presented herein reflect certain adjustments, not recorded in the primary books of TDK Corporation and its subsidiaries, to present the financial position, results of operations and cash flows in conformity with U.S. generally accepted accounting principles ("U.S. GAAP").

#### (b) Consolidation Policy

The consolidated financial statements include the accounts of TDK Corporation, its subsidiaries and those variable interest entities where TDK is the primary beneficiary under U.S. GAAP. All significant intercompany balances and transactions have been eliminated in consolidation.

The investments in affiliates where TDK exercises significant influence over their operating and financial policies are accounted for using the equity method of accounting. All significant intercompany profits from transactions with these affiliates have been eliminated.

#### (c) Adoption of New Accounting Standards

#### Simplifying the Measurement of Inventory

In July 2015, Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-11 "Simplifying the Measurement of Inventory".

This ASU applies to all inventories except for which is measured using last-in, first-out (LIFO) or the retail inventory method, and requires an entity to measure inventory at the lower of cost and net realizable value. Net realizable value is defined as the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. TDK adopted this ASU prospectively from April 1, 2017.

The adoption of this ASU did not have a material impact on TDK's results of operations and financial position.

#### Simplifying the Test for Goodwill Impairment

In January 2017, FASB issued ASU 2017-04 "Simplifying the Test for Goodwill Impairment". This ASU eliminates Step 2 of the goodwill impairment test, instead requires an entity to recognize an impairment charge for the amount by which the carrying amount of a reporting unit exceeds its fair value, not to exceed the total amount of goodwill allocated to the reporting unit. TDK early adopted this ASU prospectively from April 1, 2017.

The adoption of this ASU did not have impacts on TDK's results of operations and financial position for the nine-month and the three-month ended December 31, 2017.

#### (d) Other operating expense (income)

Other operating expense (income) for the nine-month ended December 31, 2016 and 2017 are as follows:

|  | Yen (Millions)    |                   |
|--|-------------------|-------------------|
|  | Nine-month ended  | Nine-month ended  |
|  | December 31, 2016 | December 31, 2017 |
| Gain on sale of business (Note 14)     | ¥ 2,129           | ¥ (4,184)         |
| Impairment of long-lived assets        | 959               | 973               |
| Other operating expense (income) total | ¥ 3,088           | ¥ (3,211)         |

|  | Yen (Millions)    |                          |
|--|-------------------|--------------------------|
|  | Three-month ended | Three-month ended        |
|  | December 31, 2016 | <b>December 31, 2017</b> |
| Gain on sale of business (Note 14)     | ¥ 858             | ¥ (1,249)                |
| Impairment of long-lived assets        | 113               | 948                      |
| Other operating expense (income) total | ¥ 971             | ¥ (301)                  |

Other operating expense (income) for the three-month ended December 31, 2016 and 2017 are as follows:

#### (e) Subsequent Events

TDK has evaluated the subsequent events through February 13, 2018, the date on which the consolidated financial statements are available to be issued.

#### (f) Reclassifications

Certain reclassifications have been made to the prior year's consolidated financial statements and quarterly consolidated financial statements to conform to the presentation used for the nine-month and the three-month ended December 31, 2017.

#### 2. Marketable Securities and Investments in Securities

Marketable securities and investments in securities as of March 31, 2017 and December 31, 2017, are as follows:

| , , ,                                 | Yen (Millions) |                   |
|---------------------------------------|----------------|-------------------|
|                                       | March 31, 2017 | December 31, 2017 |
| Marketable securities                 | ¥ -            | ¥ 808             |
| Investments in affiliates             | 149,057        | 149,671           |
| Other investments in securities:      |                |                   |
| Long-term marketable securities       | 10,118         | 10,714            |
| Nonmarketable securities              | 2,650          | 1,123             |
| Total other investments in securities | 12,768         | 11,837            |
| Total                                 | ¥ 161,825      | ¥ 162,316         |

Marketable securities and investments in securities include available-for-sale securities. Information with respect to such securities as of March 31, 2017 and December 31, 2017, is as follows:

|  |         | Yen (I                                  | Millions)                                |            |  |

The proceeds from sale and maturity of available-for-sale securities and nonmarketable securities were \$375 million and \$289 million for the nine-month and the three-month ended December 31, 2016, respectively. The proceeds from sale and maturity of available-for-sale securities and nonmarketable securities were \$24,117 million and \$438 million for the nine-month and the three-month ended December 31, 2017, respectively. The gross realized gains on the sale and settlement of available-for-sale securities was \$74 million and \$43 million for the nine-month and the three-month ended December 31, 2016, respectively. The gross realized gains on the sale and settlement of available-for-sale securities was \$74 million and \$43 million for the nine-month and the three-month ended December 31, 2016, respectively. The gross realized gains on the sale and settlement of available-for-sale securities was \$570

million and \$11 million for the nine-month ended December 31, 2017, respectively. The gross realized loss on the sale and settlement of available-for-sale securities was \$275 million for the nine-month ended December 31, 2017. The costs of available-for-sale securities sold were determined on average cost basis.

As of December 31, 2017, all of the available-for-sale securities with unrealized losses were in a continuous unrealized loss position for less than 12 months.

The aggregate cost of nonmarketable securities accounted for under the cost method as of March 31, 2017 and December 31, 2017 totaled  $\frac{1}{2}$ ,650 million and  $\frac{1}{2}$ ,123 million, respectively.

#### 3. Inventories

Inventories as of March 31, 2017 and December 31, 2017, are summarized as follows:

|                 | ren (N         | viiiions)         |
|-----------------|----------------|-------------------|
|                 | March 31, 2017 | December 31, 2017 |
| Finished goods  | ¥ 62,278       | ¥ 79,777          |
| Work in process | 38,582         | 49,565            |
| Raw materials   | 53,639         | 82,022            |
| Total           | ¥ 154,499      | ¥ 211,364         |

#### 4. Cost for Retirement and Severance Benefits

Net periodic benefit cost for TDK's employee retirement and severance defined benefit plans for the nine-month ended December 31, 2016 and 2017 consist of the following components:

| Yen (Millions)    |  |
|-------------------|--|
| Nine-month ended  | Nine-month ended   |
| December 31, 2016 | December 31, 2017  |
| ¥ 6,552           | ¥ 6,157  |
| 2,743             | 2,806  |
| (3,239)           | (3,100)  |
| 4,992             | 4,299  |
| (1,450)           | (1,048)  |
| ¥ 9,598           | ¥ 9,114  |
|                   | Nine-month ended<br>December 31, 2016<br>¥ 6,552<br>2,743<br>(3,239)<br>4,992<br>(1,450) |

Net periodic benefit cost for TDK's employee retirement and severance defined benefit plans for the three-month ended December 31, 2016 and 2017 consist of the following components:

| 1  | Yen (Millions)    |                   |
|--|-------------------|-------------------|
|  | Three-month ended | Three-month ended |
|  | December 31, 2016 | December 31, 2017 |
| Service cost-benefits earned during the period | ¥ 2,177           | ¥ 2,071           |
| Interest cost on projected benefit obligation  | 943               | 948               |
| Expected return on plan assets                 | (1,092)           | (1,037)           |
| Amortization of actuarial loss                 | 1,655             | 1,452             |
| Amortization of prior service cost (benefit)   | (480)             | (351)             |
| Net periodic benefit cost                      | ¥ 3,203           | ¥ 3,083           |

#### 5. Contingent Liabilities

TDK provides guarantees to third parties on bank loans of its employees. The guarantees on behalf of the employees are made for their housing loans. For each guarantee issued, in the event the employee defaults on payment, TDK would be required to make payments under its guarantee.

The maximum amount of undiscounted payments TDK would have to make in the event of default as of March 31, 2017 and December 31, 2017, are as follows:

|   | Yen (Millions) |                   |
|---|----------------|-------------------|
|   | March 31, 2017 | December 31, 2017 |
| Guarantees to third parties on bank loans |                |                   |
| of employees                              | ¥ 956          | ¥ 797             |

As of December 31, 2017, the liability recognized for the estimated fair value of TDK's obligation under the guarantee arrangement is not material.

On July 26, 2016, Japan Fair Trade Commission started an investigation on TDK Corporation based on the suspicion of the violation of the Act on Prohibition of Private Monopolization and Maintenance of Fair Trade in connection with the HDD suspension assembly business and TDK Corporation fully cooperated with Japan Fair Trade Commission for the investigation. On February 9, 2018, Japan Fair Trade Commission issued the cease and desist order and the surcharge payment order against manufacturers and sellers of the products in relation to the violation of the Act on Prohibition of Private Monopolization and Maintenance of Fair Trade in connection with the HDD suspension assembly business. An exemption from surcharge was admitted and TDK Corporation did not received the cease and desist order because of an application in advance to Japan Fair Trade Commission for leniency.

Several claims against TDK are pending. In the opinion of TDK management, based on discussions with legal counsel, any additional liability not currently provided for will not materially affect the consolidated financial position or result of operations of TDK.

#### 6. Derivative Financial Instruments and Hedging Activities

TDK operates internationally and is exposed to the risk of changes in foreign exchange rates and interest rates as well as changes in raw material prices. TDK assesses these risks by continuously monitoring changes in the exchange rates, interest rates and raw material prices and by evaluating hedging opportunities. Derivative financial instruments are utilized to reduce these risks. TDK does not hold or issue derivative financial instruments for trading purposes. TDK is exposed to credit related losses in the event of nonperformance by the counterparties to those derivative financial instruments, but does not expect any counterparties to fail to meet their obligations given their high credit ratings. The credit exposure of those financial instruments is represented by the fair values of contracts. The fair values of the contracts are calculated based on the quotes presented by financial institutions. TDK does not hold any derivative instruments which consisted credit-risk-related contingent features.

#### (1) Hedges of net investment in foreign operations

TDK uses forward foreign exchange contracts and borrowings denominated in the subsidiary's local currency to hedge the foreign currency exposure of the net investment in overseas subsidiaries. The gains and losses of these hedging instruments are recorded in foreign currency translation adjustments, which is a part of other comprehensive income (loss). There are no gains (losses) reclassified from other comprehensive income (loss) to earnings. Also, there is no ineffective portion and amount excluded from effectiveness testing.

(2) Derivatives not designated as hedging instruments

TDK uses forward foreign exchange contracts, nondeliverable forward contracts (NDF), currency swap contracts and currency option contracts in order to offset foreign exchange gain (loss) mainly arising from foreign-currency denominated assets and liabilities and forecasted transactions. TDK uses interest rate swap in order to control the fluctuation risks

of interest rates. Also, TDK uses commodity forward contracts in order to control the fluctuation risk of raw material prices. Although these contracts are not designated as hedges, which is required to apply hedge accountings, TDK considers that these are effective as hedges from an economic viewpoint. The fair values of these undesignated contracts are recognized as income or expenses as earned or incurred.

The effect of derivative financial instruments on the consolidated statements of income and consolidated statements of comprehensive income (loss) for the nine-month ended December 31, 2016 and 2017 are as follows:

(1) Hedges of net investment in foreign operations and other hedging instruments

#### 7. Fair Value of Financial Instruments

The following methods and assumptions were used to estimate the fair value of financial instruments in cases for which it is practicable:

# (a) Cash and cash equivalents, Short-term investments, Trade receivables, Other current assets, Short-term debt, Trade payables, Accrued expenses and Other current liabilities

Except for derivative financial instruments, the carrying amount approximates fair value because of the short maturity of these instruments.

#### (b) Marketable securities, Investments in securities and Other assets

The fair values of marketable securities and investments in securities are primarily estimated based on quoted market prices for these instruments. The fair value of TDK's long-term loans receivable included in other assets are estimated based on the amount of future cash flows associated with the instrument discounted using the borrower's current borrowing rate for similar borrowing of comparable maturity, or based on the quoted market prices for the same or similar issues. The long-term loans receivable are classified as Level 2, one of the three levels of fair value hierarchy that is discussed in Note 8 of the Notes to Consolidated Financial Statements.

#### (c) Long-term debt

The fair value of TDK's long-term debt is estimated based on the amount of future cash flows associated with the instrument discounted using TDK's current borrowing rate for similar debt of comparable maturity, or based on the quoted market prices for the same or similar issues. The long-term debt is classified as Level 2, one of the three levels of fair value hierarchy that is discussed in Note 8 of the Notes to Consolidated Financial Statements.

The carrying amounts and estimated fair values of TDK's financial instruments as of March 31, 2017 and December 31, 2017, are summarized as follows:

| As of March 21, 2017   | Yen (N          | Yen (Millions)       |  |  |
|--|-----------------|----------------------|--|--|
| As of March 31, 2017   | Carrying amount | Estimated fair value |  |  |
| Assets:<br>Other investments in securities and other                                     | V 24 156        | V 24 156             |  |  |
| assets<br>Liability:   | ¥ 24,156        | ¥ 24,156             |  |  |
| Long-term debt, including current portion<br>(excluding lease obligations)               | (250,969)       | (250,289)            |  |  |
| As of December 31, 2017  | Yen (Millions)  |                      |  |  |
| As of December 51, 2017  | Carrying amount | Estimated fair value |  |  |
| Assets:<br>Marketable securities   | ¥ 808           | ¥ 808                |  |  |
| Other investments in securities and other assets   | 26,145          | 26,145               |  |  |
| Liability:<br>Long-term debt, including current portion<br>(excluding lease obligations) | (377,793)       | (376,476)            |  |  |

Derivative financial instruments are presented in Note 6 of the Notes to Consolidated Financial Statements.

#### Limitations

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instruments. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

#### 8. Fair Value Measurements

FASB Accounting Standards Codification ("ASC") 820 "Fair Value Measurements and Disclosures" defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or most advantageous market for the asset or liability. FASB ASC 820 establishes a three level fair value hierarchy for material inputs used in measuring fair value as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that TDK has the ability to access at the measurement date
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: Unobservable inputs for the asset or liability

#### Assets and liabilities that are measured at fair value on a recurring basis

Assets and liabilities that are measured at fair value on a recurring basis as of March 31, 2017 and December 31, 2017 are as follows:

| A 6 March 21, 2017                 | Yen (Millions) |         |         |          |

Level 1 marketable securities and investments are valued using unadjusted quoted prices in active markets in which transactions occur with sufficient frequency and volume. Rabbi trusts investments included in other assets in which a part of the employees' salary is deposited and valued using unadjusted quoted prices in active markets.

Level 2 derivative contracts include forward foreign exchange contracts, Non-deliverable forward contracts (NDF), currency swap contracts, interest rate swap contracts and commodity forward contracts that are valued based on quotes obtained from counterparties and are verified using observable market inputs, such as foreign currency exchange rates and raw material prices. Investments consist of commercial papers and the fair values thereof are based on third-party assessments using observable market data.

#### 9. Goodwill and Other Intangible Assets

The components of acquired intangible assets excluding goodwill as of March 31, 2017 and December 31, 2017 are as follows:

|  | Yen (Millions)   |   |   |  |  |
|--|--|---|---|--|--|
| As of March 31, 2017   | Gross Carrying   | Accumulated   | Net Carrying  |  |  |
| As of March 51, 2017   | Amount   | Amortization  | Amount  |  |  |
| Amortizable intangible assets:   |  |   |   |  |  |

Intangible assets subject to amortization are amortized using the straight-line method over their estimated useful lives to their estimated residual value of zero. Aggregate amortization expense for the nine-month ended December 31, 2017 was ¥8,014 million.

As a result of the completion of the allocation of the acquisition cost of Tronics Microsystems SA and its subsidiaries during the nine-month ended December 31, 2017, the carrying amount of goodwill related to the Sensor Application Products segment was modified to ¥2,537 million and the modified amounts for customer relationships, unpatented technologies and other amortizable intangible assets were ¥663 million, ¥1,303 million and ¥150 million respectively.

As a result of the completion of the allocation of the acquisition cost of ICsense NV during the nine-month ended December 31, 2017, the carrying amount of goodwill related to the Sensor Application Products segment was modified to \$1,515 million and the modified amounts for customer relationships and software were \$503 million and \$52 million respectively.

The purchase price allocation in relation to the acquisition of InvenSense, Inc. and its subsidiaries was performed based on the available information as of the date on which the consolidated financial statements were issued. The goodwill related to the Sensor Application Products segment was provisionally stated at \$100,567 million and customer relationships, software, unpatented technologies, other amortizable intangible assets and trademark were provisionally stated at \$1,303 million, \$162 million, \$27,509 million, \$173 million and \$856 million respectively as of December 31, 2017. The amounts were still provisional as the purchase price allocation had not been completed as of December 31, 2017.

The details of the acquisitions are disclosed in Note 13 of the Notes to Consolidated Financial Statements.

## 10. Equity

The changes in the carrying amount of stockholders' equity, noncontrolling interests and total equity for the nine-month ended December 31, 2016 and 2017 are as follows:

|   | Yen (Millions)          |                             |              |  |  |

The decline of net income attributable to TDK for the nine-month and the three-month ended December 31, 2016 was caused by a diluted effect of stock options issued by a subsidiary of TDK Corporation.

For the nine-month and the three-month ended December 31, 2016 and 2017, certain stock options issued by TDK Corporation were excluded from the diluted per share calculation of net income attributable to TDK as the effect would have been antidilutive. The stock options issued by a subsidiary that are vested when a certain performance condition is achieved were also excluded from the diluted per share calculation of net income attributable to TDK for the nine-month and the three-month ended December 31, 2016 as it was not probable that the performance condition would be achieved as of December 31, 2016.

#### 13. Acquisition

#### (1) Hutchinson Technology Incorporated ("HTI")

On October 5, 2016 ("acquisition date"), TDK acquired 33,942 thousand shares (100% of equity interest) of HTI at a cost of \$14,262 million, which was paid in cash, in accordance with an acquisition agreement dated November 1, 2015. As a result, HTI and its subsidiaries became consolidated subsidiaries of TDK Corporation.

The acquisition-related costs of ¥1,347 million were recognized as a part of selling, general and administrative expenses.

HTI is headquartered in Minnesota, U.S.A., and its primary businesses are designing, manufacturing, and sales of HDD suspension and its components.

The purpose of acquisition is to strengthen TDK's HDD suspension assemble business and HDD head business.

The following table summarizes the assets acquired and liabilities assumed at the acquisition date. As of March 31, 2017, the allocation of the acquisition cost had been completed.

|  | Yen (millions) |
|--|----------------|
|  | Fair values    |
| Current assets                             | 8,502          |
| Net property, plant and equipment          | 10,925         |
| Intangible assets                          | 2,807          |
| Investments in securities and Other assets | 4,247          |
| Total assets                               | 26,481         |
| Current liabilities                        | 17,520         |
| Noncurrent liabilities                     | 508            |
| Total liabilities                          | 18,028         |
| Net assets acquired                        | 8,453          |
| Goodwill                                   | 5,809          |
| Total                                      | 14,262         |

Other intangible assets acquired mainly include technologies of \$1,409 million, which are subject to amortization. TDK had estimated the amortization period for technologies to be 3 years. Goodwill recognized of \$5,809 million was attributable primarily to the expected synergies from combining operations of HTI and TDK. The goodwill is not deductible for tax purpose.

Although TDK included the results of operations of HTI and its subsidiaries subsequent to the acquisition date in its consolidated financial statements, the results were not material. The effect of the acquisition to net sales and net income attributable to TDK for the nine-month ended December 31, 2016 as though the acquisition had occurred at the beginning of the year ended March 31, 2017 were not material either.

(2) Tronics Microsystems SA ("Tronics") On December 27, 2016 ("acquisition date"), TDK acquired 2,546 thousand shares (72.78% of equity interest) of Tronics at a cost of ¥4,107 million, which was paid in cash, through a public tender in accordance with a transaction agreement dated August 1, 2016. As a result, Tronics and its subsidiaries became consolidated subsidiaries of TDK Corporation. The acquisition-related costs of ¥94 million were recognized as a part of selling, general and administrative expenses.

Tronics is headquartered in Crolles, France, and its primary businesses are R&D, manufacturing, and sales of MEMS (Micro Electro Mechanical System) sensors.

Through the acquisition of Tronics, TDK broadens its portfolio of cutting-edge sensor technologies and strengthens its basis for faster growth in the strategic field of sensors.

The following table summarizes the assets acquired and liabilities assumed at the acquisition date. As of December 31, 2017, the allocation of the acquisition cost had been completed. The fair value of noncontrolling interests was measured based on the market price of the common shares of Tronics as of the acquisition date.

|  | Yen (millions) |
|--|----------------|
|  | Fair values    |
| Current assets                             | 1,470          |
| Net property, plant and equipment          | 780            |
| Intangible assets                          | 2,116          |
| Investments in securities and Other assets | 107            |
| Total assets                               | 4,473          |
| Current liabilities                        | 578            |
| Noncurrent liabilities                     | 788            |
| Total liabilities                          | 1,366          |
| Noncontrolling interests                   | 1,537          |
| Net assets acquired                        | 1,570          |
| Goodwill                                   | 2,537          |
| Total                                      | 4,107          |

Other intangible assets acquired mainly include technologies of ¥1,303 million, which are subject to amortization. TDK had estimated the amortization period for technologies to be 15 years. Goodwill recognized of  $\frac{12}{537}$  million was attributable primarily to expected synergies from combining operations of Tronics and TDK. The goodwill is not deductible for tax purpose.

As of December 31, 2017, TDK held 2,753 thousand shares (74.7% of equity interest) of Tronics at a cost of ¥4,440 million, which was paid in cash.

Although TDK included the results of operations of Tronics and its subsidiaries subsequent to the acquisition date in its consolidated financial statements, the results were not material. The effect of the acquisition to net sales and net income attributable to TDK for the nine-month ended December 31, 2016 as though the acquisition had occurred at the beginning of the year ended March 31, 2017 were not material either.

(3) ICsense NV ("ICsense") On March 22, 2017 ("acquisition date"), TDK acquired 17 thousand shares (100% of equity interest) of ICsense at a cost of ¥2,396 million, which was paid in cash, in accordance with a share acquisition agreement. As a result, ICsense became a consolidated subsidiary of TDK Corporation.

The acquisition-related costs of ¥25 million were recognized as a part of selling, general and administrative expenses.

ICsense is headquartered in Leuven, Belgium, and its primary businesses are development and supply of ASICs, as well as design of custom ICs.

Through the acquisition of ICsense, TDK broadens its portfolio of cutting-edge sensor technologies and expands its sensor business.

The following table summarizes the assets acquired and liabilities assumed at the acquisition date. As of December 31, 2017, the allocation of the acquisition cost had been completed.

|  | Yen (millions) |  |
|--|----------------|--|
|  | Fair values    |  |
| Current assets                             | 666            |  |
| Net property, plant and equipment          | 53             |  |
| Intangible assets                          | 555            |  |
| Investments in securities and Other assets | 48             |  |
| Total assets                               | 1,322          |  |
| Current liabilities                        | 254            |  |
| Noncurrent liabilities                     | 187            |  |
| Total liabilities                          | 441            |  |
| Net assets acquired                        | 881            |  |
| Goodwill                                   | 1,515          |  |
| Total                                      | 2,396          |  |

Other intangible assets acquired mainly include customer relationship of ¥354 million, which is amortized over ten years. Goodwill recognized of ¥1,515 million was attributable primarily to expected synergies from combining operations of ICsense and TDK. The goodwill is not deductible for tax purpose.

Although TDK included the results of operations of ICsense subsequent to the acquisition date in its consolidated financial statements, the results were not material. The effect of the acquisition to net sales and net income attributable to TDK for the nine-month ended December 31, 2016 as though the acquisition had occurred at the beginning of the year ended March 31, 2017 were not material either.

(4) InvenSense, Inc. ("InvenSense") On May 18, 2017 ("acquisition date"), TDK acquired 96,253 thousand shares (100% of equity interest) of InvenSense at a cost of ¥142,758 million, which was paid in cash, in accordance with an acquisition agreement dated December 21, 2016. As a result, InvenSense and its subsidiaries became consolidated subsidiaries of TDK Corporation.

The acquisition-related costs of \$1,263 million were recognized as a part of selling, general and administrative expenses.

InvenSense is headquartered in San Jose, California, U.S.A., and its primary businesses are Development, fabless-manufacture and sales of inertial sensors, acceleration sensors, angular velocity sensors, magnetic compasses, voice sensors etc. and control software. Through the acquisition of InvenSense, TDK will be able to strengthen its product

line-ups and technologies, which is expected to enable TDK to become a stronger player in broad based sensor solutions for IoT, automotive and ICT by accelerating the sensor product roadmap to offer innovative next generation products and platforms. In addition, sensor fusion, the combination of various sensor technologies and software creates products with enhanced added value for customers across multiple fields.

The following table summarizes the provisional fair values of the assets acquired and liabilities assumed at the acquisition date. As of November 13, 2017, the date on which the consolidated financial statements were issued, the allocation of the acquisition cost had not been completed yet.

|  | Yen (millions) |
|--|----------------|
|  | Fair values    |
| Current assets                             | 38,048         |
| Net property, plant and equipment          | 4,154          |
| Intangible assets                          | 30,003         |
| Investments in securities and Other assets | 565            |
| Total assets                               | 72,770         |
| Current liabilities                        | 27,679         |
| Noncurrent liabilities                     | 2,900          |
| Total liabilities                          | 30,579         |
| Net assets acquired                        | 42,191         |
| Goodwill                                   | 100,567        |
| Total                                      | 142,758        |

Goodwill of ¥100,567 million was recognized primarily because the acquisition cost exceeded the tentative net assets acquired as of acquisition date. The goodwill is not deductible for tax purpose.

Although TDK included the results of operations of InvenSense and its subsidiaries subsequent to the acquisition date in its consolidated financial statements, the results were not material. The effect of the acquisition to net sales and net income attributable to TDK for the nine-month ended December 31, 2016 and 2017 as though the acquisition had occurred at the beginning of the year ended March 31, 2017 were not material either.

#### 14. Sale of Business

On February 3, 2017, TDK transferred its high-frequency devices business to RF360 Holdings Singapore PTE. Ltd. ("RF360") and its subsidiaries, and subsequently sold 51% of the common shares of RF360 held by EPCOS AG, a wholly owned subsidiary of TDK, to Qualcomm Global Trading PTE. Ltd. ("QGT"), which is a 100% indirect ownership subsidiary of Qualcomm Incorporated ("Qualcomm") based on the business alliance agreement involving establishment of a joint venture concluded with Qualcomm on January 13, 2016. The assets and liabilities subject to business transfer were disclosed as single line items in the assets held for sales and the liabilities held for sale in consolidated financial statements as of December 31, 2016.

The following table summarizes the assets and liabilities held for sale as of December 31, 2016.

| As of December 31, 2016           | Yen (millions) |
|-----------------------------------|----------------|
| Current assets                    | 80,390         |
| Net property, plant and equipment | 86,946         |
| Goodwill and Intangible assets    | 11,536         |
| Other assets                      | 1,441          |
| Assets held for sale              | 180,313        |
| Current liabilities               | 23,711         |
| Noncurrent liabilities            | 17,266         |
| Liabilities held for sale         | 40,977         |

An option to put and call the remaining common shares (49%) of RF360 after 30 months after the closing date is held by TDK and QGT, respectively. Contingent consideration to be recognized over several years is included in the total consideration amount, realized or realizable portion of which is recognized in other operating expense (income) of consolidated statement of income for the nine-month ended December 31, 2017. The remaining common shares (49%) of RF360 Holdings is recognized in consolidated balance sheet as investments in affiliates.

#### **15. Segment Information**

#### **Business Segment Information**

Operating segments are components of TDK for which discrete financial information is available and whose operating results are regularly reviewed by management to make decisions about resources to be allocated to the segment and assess its performance.

Multiple operating segments that have similarities, including type and nature of products, production process, market and so on, are aggregated into the Passive Components segment, the Sensor Application Products segment, the Magnetic Application Products segment and the Film Application Products segment. Operating segments which are not reportable segments are included in Other.

In addition, TDK newly established Sensor Systems Business Company on April 1, 2017, and established the Sensor Application Products segment from the three month ended June 30, 2017 in accordance with the change in the management category of certain businesses. Sensors of the Passive Components segment, Magnetic Sensors of the Magnetic Application Products segment and certain products of Other were reclassified into newly established reporting segment of the Sensor Application Products from the three month ended June 30, 2017.

Furthermore, in accordance with the reorganization for the three month ended June 30, 2017, certain products of Other were reclassified into the Passive Components segment and certain products of the Magnetic Application Products segment were reclassified into Other.

In accordance with the above, the prior year's figures are also reclassified to conform to the new segmentation.

| Segment                          | Principal businesses   |
|----------------------------------|--|
| Passive Components               | Ceramic Capacitors, Aluminum Electrolytic Capacitors,<br>Film Capacitors, Inductive Devices (Coils/Ferrite<br>Cores/Transformers), High-Frequency Devices, Piezoelectric<br>Material Products, Circuit Protection Components |
| Sensor Application<br>Products   | Temperature and Pressure Sensors, Magnetic Sensors, MEMS<br>Sensors  |
| Magnetic Application<br>Products | HDD Heads, HDD Suspension Assemblies, Power Supplies,<br>Magnets   |
| Film Application Products        | Energy Devices (Rechargeable Batteries)  |
| Other                            | Mechatronics (Production Equipment), Others  |

Principal businesses of each segment are as follows:

Intersegment transactions in operating segments are based on arm's-length prices.

The business segment information for the nine-month ended December 31, 2016 and 2017 are as follows:

#### Net sales

| Net sales                             | V (M  | 11:)        |
|---------------------------------------|---|-------------|

Net sales are based on the location of the customers.

Major countries in each geographic area:

- (1) Americas ..... United States of America
- (2) Europe ..... Germany
- (3) Asia and others ..... Thailand, Philippines, Korea, Vietnam

#### 16. Income Taxes

The United States of America enacted the new tax legislation on December 22, 2017, and reduction of federal corporate tax rates, etc. came into effect from January 1, 2018. The impact of the tax reform is recognized in income in the period that includes the date of enactment of the tax legislation.

The main impact of the tax reform is the revaluation of deferred tax assets and deferred tax liabilities resulting from the reduction of federal corporate tax rates. As a result, income taxes increased by \$3,513 million for the nine-month and the three-month ended December 31, 2017.
