Consolidated Results for 3Q of FY March 2022 Consolidated Full Year Projections for FY March 2022

Tetsuji Yamanishi Executive Vice President

Key points concerning earnings for 3Q of FY March 2022 Attracting Tomorrow

Despite prolonged restrictions due to the COVID-19 pandemic, demand for electronic components remained robust, sales and operating income achieved new record highs and profitability also improved.*

Net sales increased 26.3% year on year. Operating income increased 31.3% year on year.
Net sales and operating income for 3Q and the first nine months of FY March 2022 achieved new record highs for both a quarterly and a first-nine-month basis.*

¬ Although automobile production has been affected by the shortage in supply of semiconductors and other components, sales to the automotive market remained brisk on the back of an increase in the number of components installed per vehicle in line with the further progress of conversion to EVs. Sales of Passive Components and Sensors increased.

- ¬ As for the ICT market, while production of smartphones was below the initial forecast due to supply chain constraints, demand for PCs and tablets remained brisk. In addition, investment in data centers remained strong and demand for servers increased. Sales of Rechargeable Batteries, Sensors, and HDD Heads increased.
- Demand related to the industrial equipment market remained strong, resulting in expanded sales of Passive Components, Rechargeable Batteries, and Power Supplies.
- ¬ Full-year projections were revised upward in light of operating results through 3Q and the latest order trends.

*Operating income is compared on the basis excluding a gain on sale of business recorded in FY March 2017.

3Q results - Passive Components segment

Net sales 129.5 billion yen (up 18.3% year on year) Operating income 22.6 billion yen (up 69.3% year on year)

• Ceramic Capacitors

- Sales and profit increased year on year.
- Sales increased to the automotive market and distributors.

Aluminum Electrolytic Capacitors and Film Capacitors

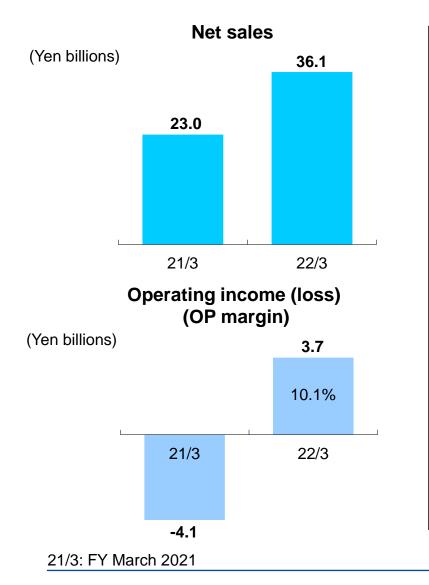

- ¬ Sales and profit increased year on year.
- Sales increased to the industrial equipment market.

Inductive Devices

- ¬ Sales and profit increased year on year.
- Sales increased to the industrial equipment market.
- High-Frequency Components
 - Sales increased and profit decreased year on year.
 - Sales decreased to the ICT market.
- Piezoelectric Material Products and Circuit Protection Components
 - ¬ Sales and profit increased year on year.
 - Sales increased to the industrial equipment market.

3Q results - Sensor Application Products segment

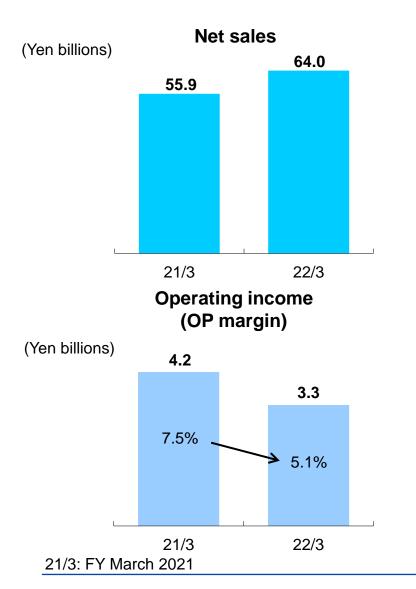

Net sales 36.1 billion yen (up 57.1% year on year) Operating income 3.7 billion yen (up —% year on year)

Sensors

- Sales surged year on year. The segment achieved profitability in 2Q and the profit margin improved further.
- Sales of Temperature and Pressure Sensors increased to the industrial equipment market.
- In Magnetic Sensors, sales of Hall Sensors increased to the automotive market, and sales of TMR Sensors increased significantly year on year, thanks to their increased adoption by the ICT market.
- In MEMS Sensors, sales of Motion Sensors and Microphones increased significantly, owing to the expansion of the customer base and application base. Earnings improved greatly.

3Q results - Magnetic Application Products segment

Net sales 64.0 billion yen (up 14.4% year on year) Operating income 3.3 billion yen (down 22.5% year on year)

• HDD Heads and HDD Suspension Assemblies

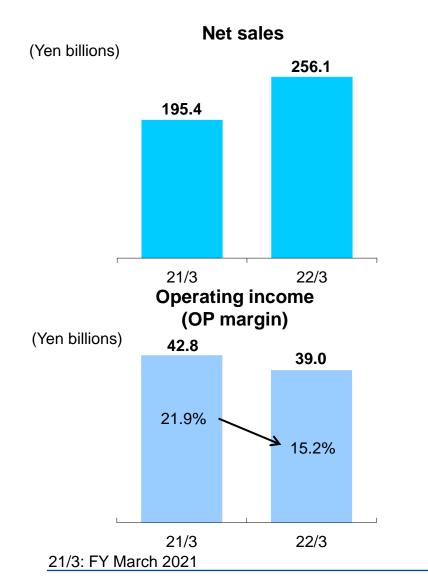

- Sales and profits of HDD heads increased year on year due to strong demand for data centers.
- Sales of HDD Suspension Assemblies increased year on year. Profit decreased due to the absence of one-time profit (gain on asset sales) recorded in 3Q of the previous fiscal year.

Magnets

- ¬ Sales increased and profit decreased year on year.
- Sales increased to the automotive market and decreased to the industrial equipment market.

3Q results - Energy Application Products segment

Net sales 256.1 billion yen (up 31.1% year on year) Operating income 39.0 billion yen (down 8.9% year on year)

Energy Devices (Rechargeable Batteries)

- Sales increased and profit decreased year on year. Profit decreased due to upfront investments for power cell products and soaring raw material prices.
- Profitability, including the effects of higher raw material costs and royalties, has improved further from 2Q.
- ¬ Sales for smartphones, PCs, and tablets expanded.
- Sales of power cell products for electric motorcycles and residential energy storage systems expanded.
- Power Supplies
 - Sales of Power Supplies for industrial equipment increased and profit decreased year on year.

Cautionary statements with respect to forward-looking statements

Attracting Tomorrow

This material contains forward-looking statements, including projections, plans, policies, management strategies, targets, schedules, understandings, and evaluations about TDK, or its group companies (TDK Group). These forward-looking statements are based on the current forecasts, estimates, assumptions, plans, beliefs, and evaluations of the TDK Group in light of the information currently available to it, and contain known and unknown risks, uncertainties, and other factors. The TDK Group therefore wishes to caution readers that, being subject to risks, uncertainties, and other factors, the TDK Group's actual results, performance, achievements, or financial position could be materially different from any future results, performance, achievements, or financial position expressed or implied by these forward-looking statements, and the TDK Group undertakes no obligation to publicly update or revise any forward-looking statements after the issue of this material except as provided for in laws and ordinances.

The electronics markets in which the TDK Group operates are highly susceptible to rapid changes, risks, uncertainties, and other factors that can have significant effects on the TDK Group including, but not limited to, shifts in technology, fluctuations in demand, prices, interest and foreign exchange rates, and changes in economic environments, conditions of competition, laws and regulations. Also, since the purpose of these materials is only to give readers a general outline of business performance, many numerical values are shown in units of a billion yen. Because original values, which are managed in units of a million yen, are rounded off, the totals, differences, etc. shown in these materials may appear inaccurate. If detailed figures are necessary, please refer to our financial statements and supplementary materials.

Text data including Q&A of performance briefing will be uploaded on following site. https://www.tdk.com/en/ir/ir_events/conference/2022/3q_1.html
