# TDK selected as "Sustainability Yearbook Member 2025" by S&P Global

March 14, 2025

TDK Corporation (TSE:6762) has been selected as a "Yearbook Member" in "The Sustainability Yearbook 2025" published by S&P Global (headquarters: USA), an international research and rating agency.

Every year, S&P Global evaluates the sustainability of the world's major companies from three aspects: governance and economy, environment, and society. The top 15% of particularly highly-rated companies in each industry are selected each year as "Yearbook Members" and published in "The Sustainability Yearbook." This year, 780 companies were selected as "Yearbook Members" from more than 7,690 companies evaluated. TDK has been selected continuously since 2021, and this is the fifth consecutive year of selection.

With the company's long-term vision "TDK Transformation," TDK aims to contribute to the realization of a sustainable future by accelerating the evolution of technology and social transformation through electronic devices that combine its unique materials, processes and software. TDK will continue to actively promote sustainability activities through its business and contribute to realizing a sustainable future.

### About TDK Corporation

TDK Corporation is a world leader in electronic solutions for the smart society based in Tokyo, Japan. Built on a foundation of material sciences mastery, TDK welcomes societal transformation by resolutely remaining at the forefront of technological evolution and deliberately “Attracting Tomorrow.” It was established in 1935 to commercialize ferrite, a key material in electronic and magnetic products. TDK’s comprehensive, innovation-driven portfolio features passive components such as ceramic, aluminum electrolytic and film capacitors, as well as magnetics, high-frequency, and piezo and protection devices. The product spectrum also includes sensors and sensor systems such as temperature and pressure, magnetic, and MEMS sensors. In addition, TDK provides power supplies and energy devices, magnetic heads and more. These products are marketed under the product brands TDK, EPCOS, InvenSense, Micronas, Tronics and TDK-Lambda. TDK focuses on demanding markets in automotive, industrial and consumer electronics, and information and communication technology. The company has a network of design and manufacturing locations and sales offices in Asia, Europe, and in North and South America. In fiscal 2024, TDK posted total sales of USD 14.6 billion and employed about 101,000 people worldwide.
