# TDK selected for the Somo Sustainability Index

- TDK's ESG initiatives recognized for the 14th consecutive year

June 24, 2025

TDK Corporation (TSE: 6762) announced today that it has been selected as a constituent of the Somo Sustainability Index (hereinafter referred to as the "index"), which is independently developed by Somo Asset Management Co., Ltd. This is the 14th consecutive year that TDK was selected since the index was established in 2012.

The index was created by Somo Asset Management based on ESG scores from the "Environmental Management Survey" and "ESG Management Survey" conducted by Somo Risk Management, combined with its own stock value assessment, and consists of approximately 300 stocks with excellent ESG ratings. Somo Asset Management has built a portfolio that follows the index and has been conducting sustainable management since August 2012. TDK's efforts to reduce environmental impact and other activities with specific targets, as well as our environmental management system involving the entire company and supply chain, were evaluated. The index is currently being adopted by several institutional investors, including pension funds.

TDK will continue to contribute to the realization of a sustainable future based on the company's long-term vision, "TDK Transformation -Accelerating transformation for a sustainable future-," while aiming to solve social issues through TDK's business based on its management philosophy.

### About TDK Corporation

TDK Corporation is a world leader in electronic solutions for the smart society based in Tokyo, Japan. Built on a foundation of material sciences mastery, TDK welcomes societal transformation by resolutely remaining at the forefront of technological evolution. It was established in 1935 to commercialize ferrite, a key material in electronic and magnetic products. TDK's comprehensive, innovation-driven portfolio features passive components such as ceramic, aluminum electrolytic and film capacitors, as well as magnetics, high-frequency, and piezo and protection devices. The product spectrum also includes sensors and sensor systems such as temperature and pressure, magnetic, and MEMS sensors. In addition, TDK provides power supplies and energy devices, magnetic heads, software and more. These products are marketed under the product brands TDK, EPCOS, InvenSense, Micronas, Tronics, and TDK-Lambda. TDK focuses on demanding markets in automotive, industrial and consumer electronics, and information and communication technology. The company has a network of design and manufacturing locations and sales offices in Asia, Europe, and in North and South America. In fiscal 2025, TDK posted total sales of USD 14.4 billion and employed about 10,5000 people worldwide.
