# TDK named climate leader on CDP's annual 'A List' for water security

- TDK achieved 'A List' for water security
- TDK achieved 'A List' in water security for six consecutive years starting in 2020

December 15, 2025

TDK Corporation (TSE: 6762) announced it has been recognized for its leadership in corporate transparency and performance on water security by global environmental non-profit CDP, securing a place on its annual 'A List'. Being recognized as an 'A List' company by CDP for the sixth time is a significant achievement for TDK.

CDP is a global not-for-profit initiative that runs the global disclosure system for investors, companies, cities, states, and regions to manage their environmental impacts. CDP holds the largest environmental database in the world, and CDP scores are widely used to drive investment and procurement decisions towards a zero-carbon, sustainable and resilient economy. In 2025, over 640 financial institutions with over US\$127 trillion in assets requested companies to disclose data on environmental impacts, risks and opportunities through CDP's platform. A record-breaking 31,500 companies are requested to respond.

TDK recognizes the importance of water resources in its production activities. TDK has set reducing water withdrawal as an operational goal and are working to identify and manage water risks. TDK appreciates that this recognition in the water security field reflects the high quality of its activities.

TDK will continue to contribute to the realization of a sustainable future based on the company's long-term vision, "TDK Transformation: Accelerating transformation for a sustainable future," while aiming to solve social issues through TDK's business based on its management philosophy.

#### **About CDP**

CDP is a global non-profit that runs the world's only independent environmental disclosure system. As the founder of environmental reporting, we believe in transparency and the power of data to drive change. Partnering with leaders in enterprise, capital, policy and science, we surface the information needed to enable Earth-positive decisions. We helped more than 24,800 companies and almost 1,000 cities, states and regions disclose their environmental impacts in 2024. Financial institutions with more than a quarter of the world's institutional assets use CDP data to help inform investment and lending decisions. Aligned with the ISSB's climate standard, IFRS S2, as its foundational baseline, CDP integrates best practice reporting standards and frameworks in one place. Our team is truly global, united by our shared desire to build a world where people, planet and profit are truly balanced. Visit CDP.net or follow us @CDP to find out more.
