TDK recognized as leader and awarded an A ranking in the CDP Supplier Engagement Assessment for the sixth consecutive year

- TDK recognized as a leader in the CDP’s Supplier Engagement Assessment 2025 for the sixth consecutive year
- Recognition reflects strong collaboration with suppliers to reduce greenhouse gas emissions across the value chain

May 22, 2026

TDK Corporation (TSE:6762) has been recognized as a leader, receiving an A ranking, in global environmental non-profit CDP’s Supplier Engagement Assessment 2025. This marks the sixth consecutive year that TDK has been selected as a “Supplier Engagement Leader.”

The Supplier Engagement Assessment evaluates companies that respond to the CDP Climate Change questionnaire (full version). Companies are assessed and scored across five key areas: governance, target setting, Scope 3 emissions management, risk management processes, and supplier engagement. Companies that achieve the highest scores are recognized as Supplier Engagement Leaders.

TDK has established the TDK Environmental Charter, consisting of the “Basic Principle on the Environment” and the “Basic Policy on the Environment,” which serves as the foundation for the Group’s environmental activities. Based on this Charter, TDK has formulated its Environmental Vision and Environmental Action Plan to promote environmental initiatives across the entire Group. Under its procurement principle of “Global Partnership Purchasing,” TDK promotes environmental initiatives throughout its supply chain. These efforts include the creation of “TDK Green Procurement Standard”, supplier environmental surveys, feedback on environmental performance, dialogue with supplier environmental representatives, and support for suppliers’ energy-efficiency improvements. To help further enhance resilience, including climate change measures through collaboration with its suppliers, TDK has participated in the CDP Supply Chain Program since 2023.

TDK aims to achieve a net zero CO₂ emissions by 2050, and its greenhouse gas reduction targets through fiscal 2030 have been validated by the Science Based Targets initiative (SBTi). TDK will continue to work with suppliers and stakeholders to reduce environmental impacts across the entire value chain and contribute to the realization of a sustainable society.

The full list of this year’s Supplier Engagement Leaders is available at this link, along with other publicly available company scores:

About TDK Corporation

TDK Corporation (TSE:6762) is a global technology company and innovation leader in the electronics industry, based in Tokyo, Japan. With the tagline “In Everything, Better” TDK aims to realize a better future across all aspects of life, industry, and society. For over 90 years, TDK has shaped the world from within; from the pioneering ferrite cores to cassette tapes that defined an era, to powering the digital age with advanced components, sensors, and batteries, leading the way towards a more sustainable future. United by TDK Venture Spirit, a start-up mentality built on visions, courage and mutual trust, TDK’s passionate team members around the globe pursue better—for ourselves, customers, partners, and the world. Today, the state-of-the-art technologies of TDK are in everything, from industrial applications, energy systems, electric vehicles, to smartphones and gaming, at the core of modern life. TDK’s comprehensive, innovative-driven portfolio includes cutting-edge passive components, sensors and sensor systems, power supplies, lithium-ion and solid-state batteries, magnetic heads, AI and enterprise software solutions, and more—featuring numerous market-leading products. These are marketed under the product brands TDK, InvenSense, Micronas, Tronics, TDK-Lambda, TDK SenseEI, and ATL. Positioning the AI ecosystem as a key strategic area, TDK leverages its global network across the automotive, information and communication technology, and industrial equipment sectors to expand its business in a wide range of fields. In fiscal 2026, TDK posted total sales of USD 16.6 billion and employed about 107,000 people worldwide.

About CDP

CDP is a global non-profit that runs the world’s only independent environmental disclosure system. As the founder of environmental reporting, we believe in transparency and the power of data to drive change. Partnering with leaders in enterprise, capital, policy and science, we surface the information needed to enable Earth-positive decisions. We helped more than 22,100 companies and almost 1,000 cities, states and regions disclose their environmental impacts in 2025. Financial institutions with more than a quarter of the world’s institutional assets use CDP data to help inform investment and lending decisions. Aligned with the ISSB’s climate standard, IFRS S2, as its foundational baseline, CDP integrates best practice reporting standards and frameworks in one place. Our team is truly global, united by our shared desire to build a world where people, planet and profit are truly balanced.
