See accompanying notes to consolidated financial statements.

#### 4) Notes to Consolidated Financial Statements (Unaudited)

#### 1. Summary of Significant Accounting Policies

#### (a) Basis of Presentation

TDK Corporation and most of its domestic subsidiaries maintain their books of account in conformity with the generally accepted accounting principles in Japan, and its foreign subsidiaries' books of accounts are mainly in conformity with those of the countries of their domicile.

The consolidated financial statements presented herein reflect certain adjustments, not recorded in the primary books of TDK Corporation and its subsidiaries, to present the financial position, results of operations and cash flows in conformity with U.S. generally accepted accounting principles ("U.S. GAAP").

#### (b) Consolidation Policy

The consolidated financial statements include the accounts of TDK Corporation, its subsidiaries and those variable interest entities where TDK is the primary beneficiary under U.S. GAAP. All significant intercompany balances and transactions have been eliminated in consolidation.

The investments in affiliates where TDK exercises significant influence over their operating and financial policies are accounted for using the equity method of accounting. All significant intercompany profits from transactions with these affiliates have been eliminated.

#### (c) Adoption of New Accounting Standards

#### Leases

In February 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2016-02 "Leases (Topic 842)". This ASU requires lessees to recognize most leases on their consolidated balance sheets but recognize expenses on their consolidated statements of income in a manner similar to the previous standard. Additionally, this ASU expands qualitative and quantitative disclosures related to leases. TDK adopted this ASU from April 1, 2019. TDK applied the package of practical expedients that allows us not to reassess whether any existing contracts at or expired contracts prior to the adoption date are or contain leases, lease classification and whether any initial direct costs qualify for capitalization, to use hindsight in determining the lease term and in assessing impairment of the right-of-use assets, in addition to applying the short term lease exception. TDK also adopted the transition method which no restatement of comparative periods and no reassessment of land easements not previously accounted for as a lease that exist at or expired prior to the adoption date are required. The right-of-use assets of operating leases and operating lease obligations recognized at April 1, 2019 was \(\frac{1}{2}\)38,016 million and \(\frac{4}{3}\)5,690 million, respectively and are included in assets and liabilities in the accompanying consolidated balance sheets.

The adoption of this ASU did not have a material impact on TDK's results of operations.

### <u>Targeted Improvements to Accounting for Hedging Activities</u>

In August 2017, FASB issued ASU 2017-12 "Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities". This ASU amends existing standard to simplify the application of hedge accounting in certain situations and enables an entity to better portray the economic results of an entity's risk management activities in its financial statements. This ASU eliminates the requirement to separately measure and report hedge ineffectiveness, and requires an entity to present the earnings effect of the hedging instrument in the same line item of the consolidated statements of income in which the earnings effect of the hedged item is reported. TDK adopted this ASU from April 1, 2019. The adoption of this ASU did not have a material impact on TDK's results of operations and financial position.

#### (d) Subsequent Events

TDK has evaluated the subsequent events through November 12, 2019, the date on which the consolidated financial statements are available to be issued.

#### (e) Reclassifications

Certain reclassifications have been made to the prior year's consolidated financial statements and quarterly consolidated financial statements to conform to the presentation used for the six-month and the three-month ended September 30, 2019.

#### 2. Marketable Securities and Investments in Securities

Marketable securities and investments in securities as of March 31, 2019 and September 30, 2019, are as follows:

|  | Yen (Millions) |                           |
|--|----------------|---------------------------|
|  | March 31, 2019 | <b>September 30, 2019</b> |

The proceeds from sale and maturity of debt securities classified as available-for-sale securities were \(\frac{47}{7}\) million and \(\frac{44}{4}\) million for the six-month ended and the three-month ended September 30, 2018, respectively. The proceeds from sale and maturity of debt securities classified as available-for-sale securities was \(\frac{43}{3}\) million for the six-month ended September 30, 2019. The gross realized gains on the sale of debt securities classified as available-for-sale securities were determined on average cost basis and were reflected in income (loss).

As of September 30, 2019, all of the debt securities classified as available-for-sale securities with unrealized losses were in a continuous unrealized loss position for less than 12 months.

TDK measures certain nonmarketable equity securities without readily determinable fair values based on a practical expedient by estimating the fair value at cost minus impairment, and plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar equity securities of the same issuer. The book value of such investments amounted to \forall 870 million as of September 30, 2019. TDK did not record an impairment or other adjustments for the six-month ended September 30, 2019.

Net gains and losses recognized during the period on equity securities and unrealized gains and losses recognized during the period on equity securities for the six-month ended September 30, 2018 and September 30, 2019 are as follows:

|   | Yen (Millions)                        | Yen (Millions)                        |

#### 3. Inventories

Inventories as of March 31, 2019 and September 30, 2019, are summarized as follows:

|                 | Tell (Willions) |                           |  |
|-----------------|-----------------|---------------------------|--|
|                 | March 31, 2018  | <b>September 30, 2018</b> |  |
| Finished goods  | ¥ 86,507        | ¥ 87,601                  |  |
| Work in process | 52,688          | 56,723                    |  |
| Raw materials   | 87,697          | 76,953                    |  |
| Total           | ¥ 226,892       | ¥ 221,277                 |  |

#### 4. Cost for Retirement and Severance Benefits

Net periodic benefit cost for TDK's employee retirement and severance defined benefit plans for the six-month ended September 30, 2018 and September 30, 2019 consist of the following components:

|  | Yen (Millions)     |                    |
|--|--------------------|--------------------|
|  | Six-month ended    | Six-month ended    |
|  | September 30, 2018 | September 30, 2019 |
| Service cost-benefits earned during the period | ¥ 4,201            | ¥ 4,384            |
| Interest cost on projected benefit obligation  | 1,743              | 1,505              |
| Expected return on plan assets                 | (2,336)            | (2,458)            |
| Amortization of actuarial loss                 | 2,638              | 2,702              |
| Amortization of prior service cost (benefit)   | (184)              | (155)              |
| Net periodic benefit cost                      | ¥ 6,062            | ¥ 5,978            |

In net periodic benefit cost for TDK's employee retirement and severance defined benefit plans, service cost is included in cost of sales and sales and general administrative expense. Other elements except service cost are included in other - net of other income (deductions).

Net periodic benefit cost for TDK's employee retirement and severance defined benefit plans for the three-month ended September 30, 2018 and September 30, 2019 consist of the following components:

|  | Yen (Millions)                    |                           |
|--|-----------------------------------|---------------------------|
|  | Three-month ended Three-month end |                           |
|  | September 30, 2018                | <b>September 30, 2019</b> |
| Service cost-benefits earned during the period | ¥ 2,072                           | ¥ 2,217                   |
| Interest cost on projected benefit obligation  | 866                               | 755                       |
| Expected return on plan assets                 | (1,170)                           | (1,226)                   |
| Amortization of actuarial loss                 | 1,322                             | 1,265                     |
| Amortization of prior service cost (benefit)   | (92)                              | (68)                      |
| Net periodic benefit cost                      | ¥ 2,998                           | ¥ 2,943                   |

In net periodic benefit cost for TDK's employee retirement and severance defined benefit plans, service cost is included in cost of sales and sales and general administrative expense. Other elements except service cost are included in other - net of other income (deductions).

#### **5. Contingent Liabilities**

TDK provides guarantees to third parties on bank loans of its employees. The guarantees on behalf of the employees are made for their housing loans. For each guarantee issued, in the event the employee defaults on payment, TDK would be required to make payments under its guarantee.

The maximum amount of undiscounted payments TDK would have to make in the event of default as of March 31, 2019 and September 30, 2019, are as follows:

| _   | Y en (Millions)                     |       |  |
|---|-------------------------------------|-------|--|
|   | March 31, 2019 <b>September 30,</b> |       |  |
| Guarantees to third parties on bank loans |                                     |       |  |
| of employees                              | ¥ 610                               | ¥ 532 |  |

As of September 30, 2019, the liability recognized for the estimated fair value of TDK's obligation under the guarantee arrangement is not material.

Several claims against TDK are pending. In the opinion of TDK management, based on discussions with legal counsel, any additional liability not currently provided for will not materially affect the consolidated financial position or result of operations of TDK.

#### 6. Derivative Financial Instruments and Hedging Activities

TDK operates internationally and is exposed to the risk of changes in foreign exchange rates and interest rates as well as changes in raw material prices. TDK assesses these risks by continuously monitoring changes in the exchange rates, interest rates and raw material prices and by evaluating hedging opportunities. Derivative financial instruments are utilized to reduce these risks. TDK does not hold or issue derivative financial instruments for trading purposes. TDK is exposed to credit related losses in the event of nonperformance by the counterparties to those derivative financial instruments, but does not expect any counterparties to fail to meet their obligations given their high credit ratings. The credit exposure of those financial instruments is represented by the fair values of contracts. The fair values of the contracts are calculated based on the quotes presented by financial institutions. TDK does not hold any derivative instruments which consisted credit-risk-related contingent features.

#### (1) Hedges of net investment in foreign operations

TDK uses forward foreign exchange contracts and borrowings denominated in the subsidiary's local currency to hedge the foreign currency exposure of the net investment in overseas subsidiaries. The gains and losses of these hedging instruments are recorded in foreign currency translation adjustments, which is a part of other comprehensive income (loss). There is no ineffective portion and amount excluded from effectiveness testing.

#### (2) Derivatives not designated as hedging instruments

TDK uses forward foreign exchange contracts, currency swap contracts and currency option contracts in order to offset foreign exchange gain (loss) mainly arising from foreign-currency denominated assets and liabilities and forecasted transactions. TDK uses interest rate swap in order to control the fluctuation risks of interest rates. Also, TDK uses commodity forward contracts in order to control the fluctuation risk of raw material prices. Although these contracts are not designated as hedges, which is required to apply hedge accountings, TDK considers that these are effective as hedges from an economic viewpoint. The fair values of these undesignated contracts are recognized as income or expenses as earned or incurred.

The effect of derivative financial instruments and other hedging instruments on the consolidated statements of income and consolidated statements of comprehensive income (loss) for the six-month ended September 30, 2018 and September 30, 2019 are as follows:

(1) Hedges of net investment in foreign operations and other hedging instruments

#### 7. Fair Value of Financial Instruments

The following methods and assumptions were used to estimate the fair value of financial instruments in cases for which it is practicable:

# (a) Cash and cash equivalents, Short-term investments, Trade receivables, Other current assets, Short-term debt, Trade payables, Accrued expenses and Other current liabilities

Except for derivative financial instruments, the carrying amount approximates fair value because of the short maturity of these instruments.

#### (b) Marketable securities, Other investments in securities and Other assets

The fair values of marketable securities and investments in securities are primarily estimated based on quoted market prices for these instruments. The fair value of TDK's long-term loans receivable included in other assets are estimated based on the amount of future cash flows associated with the instrument discounted using the borrower's current borrowing rate in the market for similar borrowing of comparable maturity, or based on the quoted market prices for the same or similar issues. The long-term loans receivable are classified as Level 2, one of the three levels of fair value hierarchy that is discussed in Note 8 of the Notes to Consolidated Financial Statements.

#### (c) Long-term debt

The fair value of TDK's long-term debt is estimated based on the amount of future cash flows associated with the instrument discounted using current borrowing rate in the market for similar debt of comparable maturity, or based on the quoted market prices for the same or similar issues. The long-term debt is classified as Level 2, one of the three levels of fair value hierarchy that is discussed in Note 8 of the Notes to Consolidated Financial Statements.

The carrying amounts and estimated fair values of TDK's financial instruments as of March 31, 2019 and September 30, 2019 are summarized as follows:

| As of March 31, 2019                                  | Yen (Millions)  |                      |  |  |
|---|-----------------|----------------------|--|--|

| Liability:  |                 |                      |  |  |
| Long-term debt, including current portion             |                 |                      |  |  |
| 6   |                 |                      |  |  |

Derivative financial instruments are presented in Note 6 of the Notes to Consolidated Financial Statements.

#### Limitations

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instruments. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

#### **8. Fair Value Measurements**

FASB Accounting Standards Codification ("ASC") 820 "Fair Value Measurements and Disclosures" defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or most advantageous market for the asset or liability. FASB ASC 820 establishes a three level fair value hierarchy for material inputs used in measuring fair value as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that TDK has the ability to access at the measurement date
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3: Unobservable inputs for the asset or liability

#### Assets and liabilities that are measured at fair value on a recurring basis

Assets and liabilities that are measured at fair value on a recurring basis as of March 31, 2019 and September 30, 2019 are as follows:

| As of Morah 21, 2010                     | Yen (Millions) |         |         |          |  |
|--|----------------|---------|---------|----------|--|
| As of March 31, 2019                     | Level 1        | Level 2 | Level 3 | Total    |  |
| Assets:                                  |                |         |         | _        |  |

Level 1 marketable securities and investments are valued using unadjusted quoted prices in active markets in which transactions occur with sufficient frequency and volume. Rabbi trusts investments included in other assets in which a part of the employees' salary is deposited and valued using unadjusted quoted prices in active markets.

Level 2 derivative contracts include forward foreign exchange contracts, currency swap contracts, interest rate swap contracts and commodity forward contracts that are valued based on quotes obtained from counterparties and are verified using observable market inputs, such as foreign currency exchange rates and raw material prices. Investments consist of commercial papers and the fair values thereof are based on third-party assessments using observable market data.

Fair values of Level 3 investments are based on discounted cash flow method.

The changes in the carrying amount of assets measured at fair value on a recurring basis that was classified as level 3 for the six-month ended September 30, 2018 and September 30, 2019 are as follows:

| _                                |                    | Yen (Millions)     |

#### Assets and liabilities that are measured at fair value on a nonrecurring basis

Assets and liabilities that are measured at fair value on a nonrecurring basis for the six-month ended September 30, 2018 are as follows.

|                                       | Yen (Millions)                    |         |         |         |
|---------------------------------------|-----------------------------------|---------|---------|---------|
|                                       | Six-month ended September 30,2018 |         |         |         |
|                                       | Total gains (losses)              | Level 1 | Level 2 | Level 3 |
| Assets: Long-lived assets             |                                   |         |         |         |
| (Property, plant and equipment)       | ¥ (4,711)                         | -       | -       | ¥ 135   |
| Long-lived assets (Intangible assets) | (9)                               | -       | -       | -       |

For the six-month ended September 30, 2018, the book value of long-lived assets (property, plant and equipment) of ¥4,846 million was written down to its fair value of ¥135 million. Also the book value of long-lived assets (Intangible assets) of ¥9 million was fully written down due to impairment. The fair value of these long-lived assets was determined based on the discounted future cash flows expected from the use of each of the assets or real estate appraisal amount by external real estate appraiser etc. These fair values are classified as Level 3 because they were determined using unobservable inputs.

As a result of the above, impairment loss of ¥4,720 million caused by other-than-temporary declines in fair values during the six-month ended September 30, 2018 was included in the consolidated statements of income.

#### 9. Lease

Right-of-use assets of finance leases are included in net property, plant and equipment of the consolidated balance sheet and the amount is ¥3,793 million as of September 30, 2019.

Finance lease obligations are included in current installments of long-term debt and long-term debt, excluding current installments of the consolidated balance sheet and the amounts are ¥584 million and ¥5,209 million, respectively, as of September 30, 2019.

### 10. Goodwill and Other Intangible Assets

The components of acquired intangible assets excluding goodwill as of March 31, 2019 and September 30, 2019 are as follows:

| 1                               |                | Yen (Millions) |            |

The stock options issued by TDK Corporation that are vested when a certain performance condition is achieved were excluded from the diluted per share calculation of net income attributable to TDK for the three-month ended September 30, 2018 and September 30, 2019 as it was not probable that the performance condition would be achieved as of September 30, 2018 and September 30, 2019.

#### 14. Impairment of Long-Lived Assets

For the six-month and the three-month ended September 30, 2018, impairment losses of \(\frac{\pmathbf{4}}{4}\),720 million were recorded. For the six-month and the three-month ended September 30, 2019, impairment losses of \(\frac{\pmathbf{2}}{2}\)42 million were recorded. These are the result of a reduction of the carrying value to the fair value because the carrying value of the long-lived assets were determined to be irrecoverable due to reduction in profitability derived from lower demand.

The impairment losses are included in other operating expense (income) in the consolidated statements of income.

For the six-month and three-month ended September 30, 2018, the impairment loss includes ¥9 million for the Passive Components segment and ¥4,711 million for the Magnetic Application Products segment.

For the six-month and three-month ended September 30, 2019, the impairment loss includes \(\frac{4}{8}\) million for the Passive Components segment, \(\frac{4}{227}\) million for the Magnetic Application Products segment and \(\frac{4}{7}\) million for the Other.

#### 15. Sale of Business

On February 3, 2017, TDK transferred its high-frequency devices business to RF360 Holdings Singapore PTE. Ltd. ("RF360") and its subsidiaries, and subsequently sold 51% of the common shares of RF360 held by TDK Electronics AG, a wholly owned subsidiary of TDK, to Qualcomm Global Trading PTE. Ltd. ("QGT"), which is a 100% indirect ownership subsidiary of Qualcomm Incorporated ("Qualcomm") based on the business alliance agreement involving establishment of a joint venture concluded with Qualcomm on January 13, 2016. Contingent consideration to be recognized over several years is included in the total consideration amount, of which realized or realizable portion is recognized in other operating expense (income) of consolidated statement of income for the six-month ended September 30, 2019. An option to put and call the remaining common shares of RF360 (49%) after 30 months after the closing date was granted to TDK and QGT, respectively. TDK exercised the option on August 30, 2019 and sold 49% of the common shares on September 16, 2019. The sales price was U.S.\$1.15 billion as stated in the option and the sales did not have a material impact on the consolidated statements of income for the six-month and the three-month ended September 30, 2019.

#### 16. Revenue

TDK disaggregates revenue by industry segment, product and geographic segment based on contracts with customers. The following table presents disaggregation of revenue. In accordance with the redefinition of product portfolio in this period, certain products of Inductive Devices were reclassified into Other Passive Components. The prior year's sales are also reclassified to conform to the new classification.

Detailed information of geographic segment is presented in Note 18.

TDK sells passive components, sensor application products, magnetic application products and energy application products to global ICT related companies, manufacturers of automobile and automotive components, manufacturers of home electrical appliances and industrial equipment. For those product sales, TDK recognizes revenue when products are transferred to the customers as the customers will gain control over the products and performance obligation is satisfied accordingly.

Transaction price that TDK receives in exchange for products transferred may include variable consideration such as sales discounts, customer privileges, and rebates based on sales volume. Variable consideration is included in the transaction price when uncertainty over the variable consideration is resolved to the extent that a significant reversal in the amount of revenue is not expected. Variable consideration is estimated based on past trend or other elements which are already known as of the transaction date, and is updated on a regular basis.

For products sales based on each contract, TDK recognized the consideration received from customers for which the performance obligation to transfer goods or services has not been satisfied as advance receipt. Amounts of advance received as of March 31, 2019 and September 30, 2019 were ¥910 million and ¥1,289 million, respectively, and included in other current liabilities in the balance sheets. Out of the advance received as of March 31,

2019, ¥728 million was recognized as revenue in the statements for the six-month ended September 30, 2019, and ¥182 million was recognized as revenue in the statements for the three-month ended September 30, 2019. The amounts of revenue recognized from performance obligations for the six-month and the three-month ended September 30, 2019 that had been satisfied in previous periods were not material.

There are no unsatisfied or partially unsatisfied performance obligations as of September 30, 2019. Furthermore, there is no balance of contract assets as of September 30, 2019.

#### 17. Other operating expense (income)

Other operating expense (income) for the six-month ended September 30, 2018 and 2019 are as follows:

|  | Yen (Millions)     |                           |  |
|--|--------------------|---------------------------|--|
|  | Six-month ended    | Six-month ended           |  |
|  | September 30, 2018 | <b>September 30, 2019</b> |  |
| Gain on sale of business (Note 15)       | ¥ (2,043)          | ¥ (1,585)                 |  |
| Impairment of long-lived assets (Note14) | 4,720              | 242                       |  |
| Other operating expense (income) total   | ¥ 2,677            | ¥ (1,343)                 |  |

Other operating expense (income) for the three-month ended September 30, 2018 and 2019 are as follows:

|  | Yen (Millions)                       |                                      |  |
|--|--------------------------------------|--------------------------------------|--|
|  | Three-month ended September 30, 2018 | Three-month ended September 30, 2019 |  |
| Gain on sale of business (Note 15)       | ¥ (1,080)                            | ¥ (718)                              |  |
| Impairment of long-lived assets (Note14) | 4,720                                | 242                                  |  |
| Other operating expense (income) total   | ¥ 3,640                              | ¥ (476)                              |  |

#### **18. Segment Information**

#### **Business Segment Information**

Operating segments are components of TDK for which discrete financial information is available and whose operating results are regularly reviewed by management to make decisions about resources to be allocated to the segment and assess its performance.

Multiple operating segments that have similarities, including type and nature of products, production process, market and so on, are aggregated into the Passive Components segment, the Sensor Application Products segment, the Magnetic Application Products segment and the Energy Application Products segment. Operating segments which are not reportable segments are included in Other.

Principal businesses of each segment are as follows:

| Segment                          | Principal businesses   |
|----------------------------------|--|
| Passive Components               | Ceramic Capacitors, Aluminum Electrolytic Capacitors,<br>Film Capacitors, Inductive Devices (Coils/Ferrite<br>Cores/Transformers), High-Frequency Devices, Piezoelectric<br>Material Products, Circuit Protection Components |
| Sensor Application<br>Products   | Temperature and Pressure Sensors, Magnetic Sensors, MEMS Sensors   |
| Magnetic Application<br>Products | HDD Heads, HDD Suspension Assemblies, Magnets  |
| Energy Application<br>Products   | Energy Devices (Rechargeable Batteries), Power Supplies  |
| Other                            | Mechatronics (Production Equipment), Others  |

Intersegment transactions in operating segments are based on arm's-length prices.

The business segment information for the six-month ended September 30, 2018 and September 30, 2019 are as follows:
